## General Information

Concrete walls, basement floor slab, garage pad, patios and sidewalks are affected by unpredictable ground movement which is an inherent characteristic of local clay soil. The Builder therefore cannot warranty these items for cracks and shifting. Exterior building finishes and landscaping will be completed as weather and construction schedule permits. Due to ongoing research and analysis, plans, specifications, materials, and elevations are subject to change at the Builder's discretion. The builder also reserves the right to make substitutions in the event of shortages in supply of materials. Substitutions will be of equal or better quality and meet the requirements of the National Building Code.
